Bushra Turk

Frontend Developer | Python Developer | Exploring Agentic AI
Systems

Karachi Division, Sindh, Pakistan

Summary

I am Bushra Turk, a Frontend & Web Developer skilled in HTML, CSS, JavaScript, TypeScript, Next.js, Tailwind CSS, Sanity CMS, and API integration. I specialize in responsive web design, UI/UX development, and performance optimization to create fast and interactive web applications.

Projects & Experience:

E-commerce Website: Developed the frontend of an online store using Next.js, Tailwind CSS, API integration, Sanity CMS, and Clerk authentication.

Blog Website: Created a SEO-optimized blog using Next.js and Tailwind CSS, ensuring a smooth user experience with static content.

I am currently learning Python and Agentic AI to explore intelligent UI solutions and automation. My future goal is to work on AI-driven web interfaces, automation, and Agentic AI development to create smart and self-adaptive web applications.

Let's connect and collaborate on exciting projects!

Experience

U Devs

Frontend Developer Intern

September 2025 - Present (3 months)

Remote

During my internship as a Frontend Developer Intern at U Devs, I worked on building and improving responsive web applications using HTML, CSS, JavaScript, TypeScript, and Next.js.

My key responsibilities included:

Developing user-friendly and responsive interfaces with a focus on clean UI and smooth UX.

Implementing dynamic components and integrating APIs for real-time data rendering.

Collaborating with the team on project structure and code optimization using Git and agile workflows.

Working with Next.js features like SSR (Server Side Rendering), `getStaticProps`, `getServerSideProps`, and API routes to build scalable web pages.

This internship enhanced my practical understanding of modern frontend development, improved my coding practices, and helped me grow as a professional developer.

GIAIC

Student

February 2024 - Present (1 year 10 months)

Karāchi, Sindh, Pakistan

Education

GIAIC (Governor Sindh Initiative for AI, Web3 & Metaverse)

Undergraduate Program , Artificial Intelligence · (February 2024 - February 2026)

SMB Fatima Jinnah Girls Degree College

Intermediate, Humanities Group · (August 2019 - February 2020)

KSJ School

Matriculation , Humanities Group · (February 2017 - March 2018)
